

Personal Protection in the Home

Chief Instructors Carlo Porazzi & Jeanie Grant

Description

Unlike the other basic courses, the Personal Protection course covers defensive shooting. Self-defense is a topic somewhat distinct from the regular diet of shooting fundamentals; it can cover mindset, legal issues, decision-making under pressure, and planning for the worst. The Basic Personal Protection in the Home course is designed around the use of the defensive pistol.

Although the course can be completed as quickly as eight hours, the amount of information presented, and the probability of intensive question and answer sessions on the included topics, makes it likely that the course will take longer.

Students will receive the course handbook and intensive lessons on basics of defensive shooting, issues of self-defense, and other strategies for protecting the home and family.

Course Goal

“To develop in the students the basic knowledge, skills, and attitude essential to the safe and efficient use of a handgun for protection of self and family, and to provide information on the law-abiding citizen's right to self-defense.”
